# BRIGHT BUSINESS.

Spite of the Flurry at Bost Trade Continues Steady.

DEALINGS LARGE IN VOLUME.

Elections Business Compares Favor-ably-Iron Industry Flourishing-Labor Employed.

New York, Nov. 7 .- R. G. Dun & Co.'s veekly review of trade says: The failure of a widely known ba at Boston was the striking event of the week, but has caused astonishment rather than disturbance. Withdrawals of money from this point to fortify Boston have caused higher rates. Crops are moving freely, so that it seems scarcely possible that any important monetary disturbance shall arise at

Reports from all parts of the country show that the business, though inter-rupted somewhat by the elections, has been large in volume. At Boston the failure of the Mayerick bank caused some uneasiness, but business con-tinues steady and healthy, no lack of tinues steady and healthy, no lack of confidence is seen and money is easy. At Cincinnati groceries improve, the hat trade is good and money fairly easy, and at Cleveland the lookout is good and the demand for money equals the supply. At Detroit trade is healthy without inflation and the demand for noney moderate.

Western reports still show the effects of a phenomenal grain movement. At Chicago receipts of wheat and rye are three times last year's, the increase in dressed beef is 100 per cent., in oats, hides and wool 33 per cent. and in flour 11 per cent., while a decrease of a third appears in corn, a quarter in bar-ley, one-half in cured meats, some decrease in cheese, butter and cattle, while lard receipts are but a quarter of last year's. Sales of dry goods, clothing and shoes are largely in exclothing and shoes are largely in ex-cess of last year's and money is in fair demand. At Milwaukoe trade is good with confidence in all branches and money is quiet and active. At St. Paul manufacturing is much stimulated by large crop and money is easy. At Minneapolis the lumber trade is closing well at stiff prices and the output of flour is 209,000 barrels against 180,000 last year, while at Duluth receipts of wheat for two months have exceeded those for the

whole of last year. At St. Louis increased distribution is At St. Louis increased distribution is observed, and exchanges in October were the largest by \$4,000,000 in any month in the history of the city. At Kansas City trade keeps in good shape, at Omaha is active and at Denver im-

proving. The iron industry, in spite of the lowest prices ever known for some products, shows no despondency and he demand for manufactured ire does not diminish. trade is just now unsettled, but it is slightly stronger, though lead is lowe

at 41 cents.

A slight decrease appears in the late shipments of boots and shoes from Bos-ton. Trade in dry goods looks a little better. Spring woolens are in rather more demand, the dress goods season is fairly satisfactory and agents have begun to show overcoatings with fair results. Trade in cottons is just now equal to last year's, but for the whole season thus far it has been considerably

larger.
Speculation has lifted wheat 1% Speculation has lifted wheat 15 cents, though the western receipts con tinue enormous. Exports for the week thus far are about equal to those of re-cent weeks. Corn has declined one-half ent, with somewhat increased receip cent lower, with very leavy receipts at southern perts. Oil, pork products and hogs are somewhat lower, but coffee one-half cent higher. The gen-eral average of prices is a shade lower for the week and the markets are less embarrassed than usual by cliques

embarrassed than usual by cliques maintaining artificial prices with few controversies about wages. Throughout the country collections seem to be fair for the season, and on the whole gradually improved.

Tim's Anticipation LONDON, Nov. 7 .- T. M. Healy has to ad with Mr. McDermott. Henry Har-Parnell he would take the law into his own hands and punish Healy. The latter in repeating his references to Mrs. Parnell added that he would not mince words dealing with the matter because she had found a protector in Har-rison, who had declared his readiness to vindicate her honor. Harrison, who is of athletic build, will bide his time

to get at Healy, who is now constantly protected by police. Wicked Bears at Work. NEW YORK, Nov. 7.-A rumor was sent out recently from a Wall street news agency that Jay Gould had suf-fered a relap e and was in a serious condition. This was industriously circulated yesterday and just before the stock exchange closed the market dropped from 1 to 2 per cent. on a re-port that he was dead. The story was andoubtedly started for the purpose of bearing stocks, as there seems to be absolutely nothing on which to base it.

New York's Water Supply Low. New York, Nov. 7.—Not for years as the supply of drinking water for this city been so low nor has the danger of a genuine water famine been greater than at present. Commissioner Gilroy says that if there was no heavy rainfall soon the water would only last fifteen or twenty days more.

were FONERCA. Over DA POSSECA. Over linancial at-fairs. Measures passed by the legis-lature were veteed by the chief magis-trate, and changes advocated by the president were voted down by congress. Recently an attempt has been made military man has led many to fear, or to pretend to fear, that he might pro-claim himself dictator. To prevent any such contingency congress a short time ago passed a law fixing the pro-cess of impeachment of the president. Da Fonseca vetoed the measure. His veto was considered in a heated ses-sion, which resulted in the carrying of a motion to override the veto.

As soon as this action of the legisla-ture was made known to Da Fonseco he became very much excited and thereupon dissolved congress. His de-cree to that effect was made public yesterday. Martial law has been pro-claimed throughout Rio Janeiro and the other states forming the and the other states forming the confederacy. What the upshot will be no one can say. The feel-ing here is one of great fear of what may follow. The dissolution of congress may result in the choice of another president. Da Fonseca was not chosen by the people, but by con-gress. It was believed, on account of ill health, that he would not remain in office longer than it was necessary to establish order after the dethronement of Dom Pedro, but he has evinced no disposition since to resign.

No candidate as yet has been promi-nently brought forward as his sucsessor. At one time it was thought that Senor Prudente Jose de Morses Barros, senator for the state of San Paulo, who was the opposing candidate for the office after Dom Pedro's over-throw, would follow Da Fonseca into the office. In case of an uprising Da the omee. In case of an uprising of Fonseca would have to all appearances the army and navy solidly at his back. The vice-president is also a general. The opposition to military rulers con-tinues very marked. All cabinet and

telegraph messages are subjected to censorship. The same is true of news agencies. The legislature is modeled on that of the United States. There are 226 senators and deputies. The senators are elected for nine years and deputies for three years.

TO ELECT NEW BEPRESENTATIVES RIO DE JANEIRO, Nov. 6.—It is of-ficially announced that the president has called upon the nation to elect new epresentatives at a date to be deter mined upon later. The federal capita (Rio Janeiro) and the town of Nicthe roy (or Praia Grande) five miles east of the capital; have been declared to be in a state of siege for two months. The president has been provoked to take these steps by the proceedings of congress and by the efforts of the promoters of a restoration to overthrow republican institutions.

The president in a manifesto issued

to the nation declares himself to have been fully justified in taking the steps referred to. The army and navy support government and public tranquility, according to the official announcement, is perfect throughout the states. In conclusion it is said that the government is ready to maintain order by any means, that the constitution will be respected and that the government will points; first, that the indictment is de-also be answerable for all national en-gagements. DES MOINES, Ia., Nov. 6.—Late ele tion returns show that the democrats made a clean sweep of the state offices and the senate, but the republican have a safe majority in the house. The probable plurality for Boies is over 8,000. This will carry the rest of the democratic state ticket by probably 3,000 plurality. Dey, democrat, for railroad commissioner, will have nearly 4,000 plurality. The senate will be emocratic by a vote of 26 to 24. The ouse will be republican by 54 to 46.

A Sweeping Republican Victory. Chicago, Nov. 6.—Complete returns received from every precinct in Cook county show that the entire republican ticket was elected Tuesday. Not man seemed to be missed. The reput lican candidates for county commi overs in the city district appear to have received majorities varying from 7,000 to 14,000. Mr. Eckhart, republican candidate for drainage trustee, received 5,000 more votes than any other candidate for that office. The only democrat elected was Lyman H. SEVENTEEN MINERS KILLED. ocking Dieseter at the Anaconda Min

BUTTS CITY, Mont., Nov. 5 .- At the naconda mine last night seventeen liners were instantly killed and two

miners were instantly killed and two fatally injured.

Midnight, the time to shift the gangs of men, had come, and a cage full of miners returning from work stepped out into the open air. Their places were taken by nineteen men who were to take up the work they had just abandoned, and the cage was started to-ward the depths below. The rope had been unwound but a couple of times from the slowly-revolving windlass when there was a sudden anap and a cry of horror from the shaft in which the cage had but a moment before disappeared. The rope had broken and the cage with its nineteen inmates was precipitated to the bottom of the

was precipitated to the bottom of the mine. It was some time before any assistance could be lent. The shaft down which the miners had plunged it was useless to try to descend and other ways of getting at the place where they had fallen were round-about. Fortunately there was some help for the dead and dying in the mine itself. A number of miners who were through work and waiting to be relieved were at the bottom of the shaft waiting for the cage to take them out. Among them, narrowly missing some, the cage dashed. It broke and before their eyes were the mangled bodies of the companions

whom they were awaiting.

Of the nineteen men who made the fearful ride, seventeen were dead, their forms crushed out of all semblance to human beings, while the two who were yet breathing had no hopes of reovery.

Four masked men took charge of the

train when it stopped at the station. One covered the engineer and fireman with a Winchester, while the others proceeded to plunder the train. With drawn revolvers the men ap proached the coaches and ordered the passengers to throw up their hands but at the door they retreated and attacked

the mail car. By threatening to blow open the door with dynamite the express mes senger was induced to admit the rob bers and the car was plundered.

War on the Lottery. New OHLEANS, Nov. 5. - Gov. Nicholl is fighting the lottery cause with a strong hand, and has set about remov-ing all the state officers who have deserted the anti-cause. The ball was started yesterday by the removal of State Assessors Higgins and Trezevant. The appointments of their succe have arrived, and the ouste at once filed an injunction restraining the board from recognizing the new men. Judge Voorhies issued the in-junction, but the board of assessors, or the remaining members of it, disre-garded the order and swore in the new embers and made the issue

The Ameer of Afghanistan. London, Nov. 5.—The foreign office is elated over the news that the a of Afghanistan will be a visit of Afghanistan will be a visitor to England in the apring. Every effort will be made to impress the visitor and to show him what a great country England is. The ameer has ordered the purchase of some comfortable winter garments in London to be worn during his journey. The visit of the ameer will be of great political importance and the announcement of his intention has, it is said, already created considerable irritation at St. Petersconsiderable irritation at St. Peters-burg.
